

List of Universally Transferable Courses (SC Statewide Articulation)

This list includes general education courses approved by the public colleges and universities and the South Carolina Commission on Higher Education for transfer among two- and four-year public institutions in the state. While these courses are guaranteed to transfer, some may transfer as elective credit and not toward degree requirements. Therefore, students are advised to use the "Search for Equivalencies" function and to consult their academic counselors to learn more about how these courses will transfer to particular institutions.

NOTE: Course equivalencies are subject to change at any time, due to curriculum changes at Anderson University or the transferring institution, and do not replace an official evaluation of transfer credit by the Registrar's Office.
