

Association of
Title IX Administrators

Informal Resolution Foundations for Higher Education

Training and Certification Course

WELCOME!

- Please log in to your ATIXA Event Lobby to access the training slides, supplemental materials, and to log your attendance.
- The ATIXA Event Lobby can be accessed by scanning the QR code or by visiting **www.atixa.org/atixa-event-lobby**.
- You will be asked to enter your registration email to access the Event Lobby.
- Links for any applicable training evaluations and learning assessments are also provided in the ATIXA Event Lobby.
- If you have not registered for this training, an event will not show on your Lobby. Please email events@atixa.org or engage the ATIXA website chat app to inquire ASAP.

Strategic Risk
Management Solutions

Any advice or opinion provided during this training, either privately or to the entire group, is **never** to be construed as legal advice or an assurance of compliance. Always consult with your legal counsel to ensure you are receiving advice that considers existing case law in your jurisdiction, any applicable state or local laws, and evolving federal guidance.

Introduction

The primary focus of this training is to introduce practitioners to Informal Resolution and its application to Title IX and allegations of sex- and gender-based discrimination.

Practitioners will learn about the variety of structural and policy decisions that need to be made when implementing an Informal Resolution process.

Our goal is to provide practitioners with a deep-dive into the applicable foundational elements and considerations regarding whether and how to implement Informal Resolution options.

Content Advisory

The content and discussion in this course will necessarily engage with sex- and gender-based harassment, discrimination, and violence and associated sensitive topics that can evoke strong emotional responses.

ATIXA faculty members may offer examples that emulate the language and vocabulary that Title IX practitioners may encounter in their roles including slang, profanity, and other graphic or offensive language.

Note on Vocabulary

- Title IX resolution processes specifically address sex- and gender-based discrimination, harassment, and violence
- Common alternative resolution processes focus on opportunities to reduce “conflict” or resolve a “dispute”
- Use of existing alternative resolution terminology is not meant to diminish the reality of sex- or gender-based misconduct
- ATIXA refers to the formal grievance process required under the 2024 Regulations as an Administrative Resolution when a live hearing is not used

2024 Title IX Final Rule

- Issued **April 19, 2024**
- Effective and enforceable **August 1, 2024**
- Applies exclusively to incidents occurring **on or after August 1, 2024**
- 2024 is a blend of the 2011 Dear Colleague Letter, 2020 Regulations, and new approaches
- 1561 pages total (1504 Preamble and 57 Regulations)
- More flexibility for institutions in how to structure and staff resolution processes

2024 Title IX Regulations Litigation

- Opponents of the 2024 Title IX Regulations sought, and were granted, **injunctions** to delay or halt implementation of the Regulations
 - **Injunction:** A court order requiring an individual or entity to either perform or stop performing a specific action
- Generally, courts granted injunctions based on questions around the validity of the gender identity provisions and the hostile environment definition
- If the 2024 Regulations are not enforceable as a result of an injunction, schools, districts, and institutions in those states should continue to follow the **2020 Regulations**
 - The 2024 Regulations also are not enforceable in some individual schools and institutions

2024 Title IX Regulations Litigation

- Implementation will be unsettled for the foreseeable future
 - Appeals will continue and, eventually, trials
 - Consult legal counsel to determine implementation plans and risk strategy
- **Note:** Some states also have “Do Not Implement” directives from state officials
 - Independent from any federal lawsuits or injunctions
- Track developments on ATIXA’s Regulations website, www.atixa.org/regs
 - State-by-state information on injunctions and Do Not Implement directives
 - Lists of individual schools or institutions impacted by the Kansas injunction

Informal Resolution and Title IX

NOT FOR DISTRIBUTION

Title IX and Equity

- Title IX is a sex and gender equity law
- Equity refers to the understanding that not all individuals have access to the same resources and opportunities
 - Equity focuses on providing support and resources to reduce disparities in access to the education program
 - Title IX seeks to remedy the inequities sex and gender discrimination create
- Institutions may determine their own Informal Resolution processes
 - Processes must be equitable in execution and access

Title IX: Scope

Sex-Based Discrimination

- Inequitable Treatment
 - Sex Characteristics
 - Sex Stereotypes
 - Pregnancy or Related Conditions
 - Sexual Orientation
 - Gender Identity
- Exclusion from Participation

Sex-Based Harassment

- Quid Pro Quo
- Hostile Environment Harassment
- Dating Violence
- Domestic Violence
- Stalking
- Sexual Assault
 - Rape
 - Sodomy*
 - Sexual Assault with an Object*
 - Fondling
 - Incest
 - Statutory Rape

Retaliation

*ATIXA recommends removing these behaviors from policy, as they are covered by the Rape definition and are inconsistent with the Clery Act

The IX Commandments

Historical OCR Informal Resolution Guidance

- OCR does not define Informal Resolution (IR)
 - Uses alternative resolution as an undefined synonym
- Human resource departments have long used forms of Informal Resolution such as mediation and arbitration
- OCR Guidance
 - 2001 Revised Sexual Harassment Guidance (rescinded)
 - 2011 Dear Colleague Letter (rescinded)
 - 2017 Q&A on Campus Sexual Misconduct (rescinded)
 - 2020 Title IX Regulations
 - 2021 Title IX Q&A (updated 2022)
 - 2024 Title IX Regulations

Informal Resolution Overview

Discussion: Informal Resolution Benefits and Foundations

“When society questions a victim’s reluctance to report, I will be here to remind you that you ask us to sacrifice our sanity to fight outdated structures that were designed to keep us down. Victims do not have the time for this. Victims are also students, teachers, parents, who can’t give up work or education...It is not reasonable to casually demand that victims put aside their lives to spend more time pursuing something they never asked for in the first place...**This is about society’s failure to have systems in place in which victims feel there is a probable chance of achieving safety, justice, and restoration** rather than being retraumatized, publicly shamed, psychologically tormented, and verbally mauled. The real question is not, *Why didn’t she report*, the question is, *Why would you?*”
[bold emphasis added]

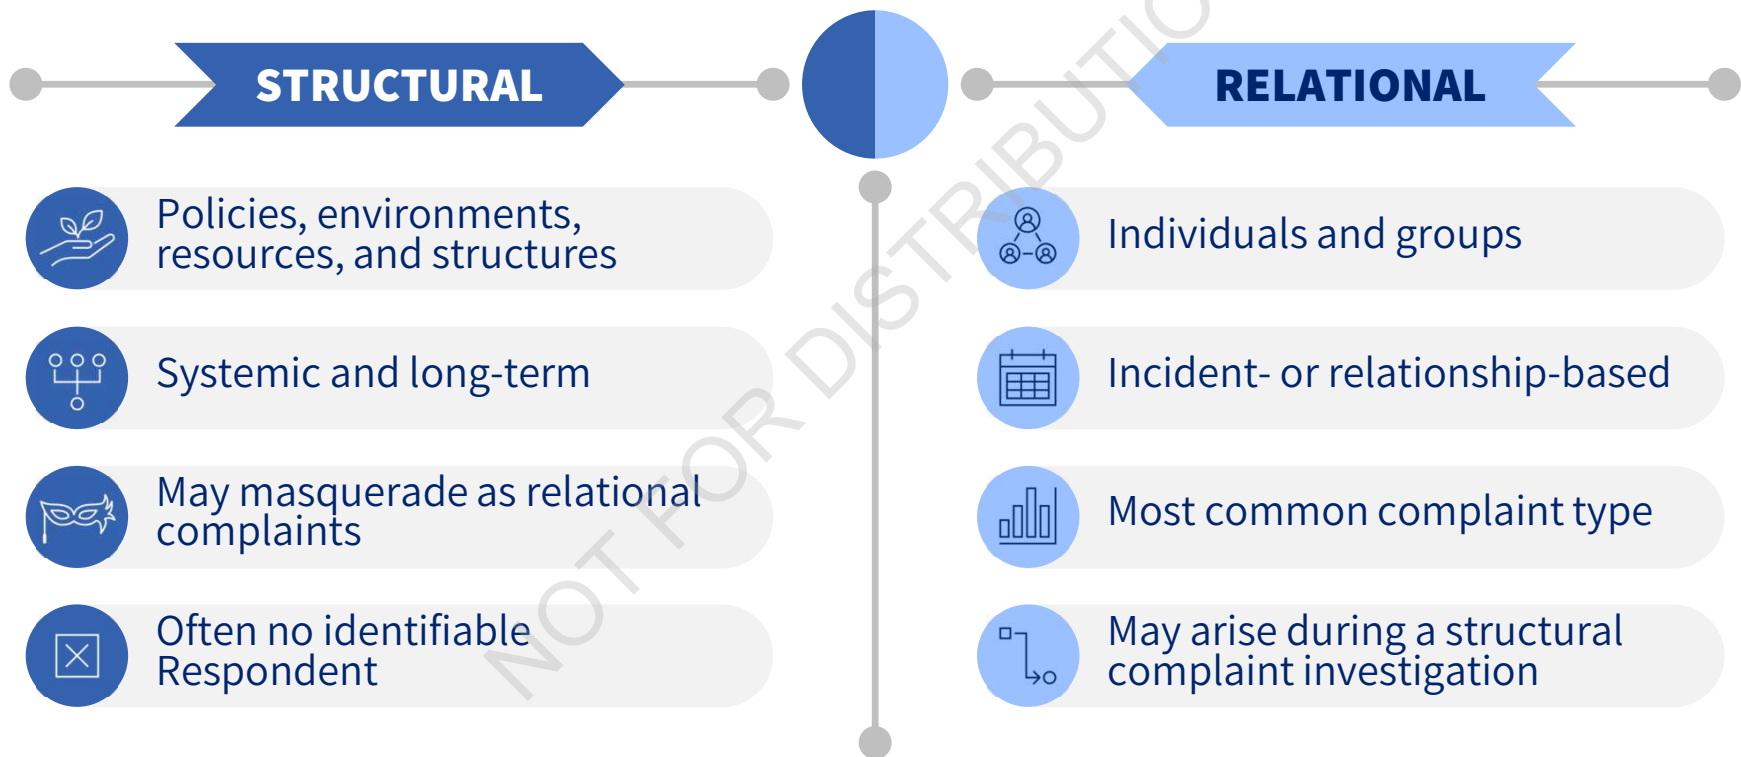

Informal Resolution Foundations

- Safety (physical, psychological, and emotional)
- Focus on needs
- Mutually serving
- Intentionality
- Informal ≠ casual
- Presence
- Meet parties where they are
- Pre- and post-process support and resources

Informal Resolution Benefits

- Can be an effective way of addressing reports and complaints for parties and impacted communities
- Resolution focuses on the people vs. focusing on the policy
- Empowers choice and agency over the resolution
- Provides a needs-based process to both address past harm and prevent future harm
- Focuses on ensuring educational access and restoration
- Honors privacy similar to the Administrative Resolution Process
- Offers a space for communication and understanding among parties, if desired

Types of Complaints

Complaints and Conflicts

Sources of Conflict

- Conflicts are a sign of unmet needs
- There are three root causes of conflict

1

**Power and
Control**

2

**Care and
Connection**

3

**Respect and
Recognition**

Contextual Considerations

- No one-size-fits-all approach to IR
- Not all structures will fit the unique circumstances of sex- and gender-based misconduct complaints
- Policies and processes should be designed with a variety of complaints and parties in mind
- IR within an educational institution is inherently different than community agency processes

Three-Party Model

Activity: Introduction to David & Andrea

Initial Contact

David has been referred to the Title IX Office by the Office of Student Conduct. He shared that his ex-fiancé Andrea (also a student) has repeatedly contacted him since their relationship ended, including leaving notes on his vehicle on campus that stated, “This is not over;” approaching him after classes; appearing at his off-campus residence; and multiple phone calls and text messages demanding that he speak to her. Andrea has also asked David’s friends where he is and has shown up at off-campus locations where they are hanging out based on their Instagram posts.

David explains that he has repeatedly asked Andrea to leave him alone and not to contact him. But she will not comply with his requests. He believes Andrea is having a hard time letting go of their relationship, and he is now seeking your help to resolve the situation.

What steps would you take upon hearing this information from David?

Informal Resolution Application

General Application Information

- IR can take place at any point before a final determination is made
- May offer IR for incidents that:
 - Could meet the regulatory definitions of Title IX sex discrimination or sex-based harassment, if proven
 - Fall under another policy
 - Do not yet rise to the level of a potential policy violation
- **IR is optional** and may be offered in a variety of forms

IR Under the Title IX Regulations

- Can take place following a report or complaint
- Alleged conduct must meet regulatory sex discrimination or sex-based harassment definition, if proven, and meet the institution's Title IX jurisdiction
 - Though if it doesn't, there is no prohibition on IR of any kind
- Complainant must have been a student, employee, or other person participating or attempting to participate in the education program or activity at the time of the alleged misconduct
- Respondent is the person alleged to have violated policy
 - Typically, a student or employee, but could be an agent/person authorized to provide services

IR Under the Title IX Regulations

- Facilitator cannot be the Investigator or Decision-Maker
 - Must be free of bias and conflicts of interest and have appropriate training
- Records maintained for minimum of **seven years**
- Cannot be used when:
 - A Complainant alleges sex discrimination against the institution
 - IR would conflict with applicable federal, state, or local law
- Policy/procedure should include option for IR, if available
- Parties must receive Notice prior to agreeing to participate in IR

Notice

Notice for IR must include:

- Allegations
- IR process requirements
- Any party may withdraw from IR process and initiate/resume Administrative Resolution Process prior to agreeing to a resolution
- A resolution agreement precludes the parties from initiating/resuming the Administrative Resolution Process for the same allegations (unless the Agreement terms are not honored)
- Potential terms that may be requested or offered
- IR agreements are only binding on the parties
- What information the institution will maintain and whether and how it could be disclosed for use in the Administrative Resolution Process

IR Outside the Regulations

- Can take place prior to or following a complaint
 - ATIXA recommends a written statement or complaint
- May address alleged policy violations and behaviors that would not violate policy but are impactful
 - Discrimination complaints that are not sex-based
 - Sex-based harassment falling outside the TIX regulations
- Complainant does not have to be affiliated with institution
- Respondent must be a student or an employee
- Recommend same Facilitator neutrality and training expectations
- Records maintained per institutional policy

IR for Impacted Groups and Communities

- Some incidents have a far-reaching impact on a larger group
- Opportunities for IR to address gaps that may exist between individual and community harm
- Considerations
 - Are the involved parties agreeable?
 - Are the involved parties present?
 - Do the power dynamics allow for voluntary choice?
 - How expansive is the impact?

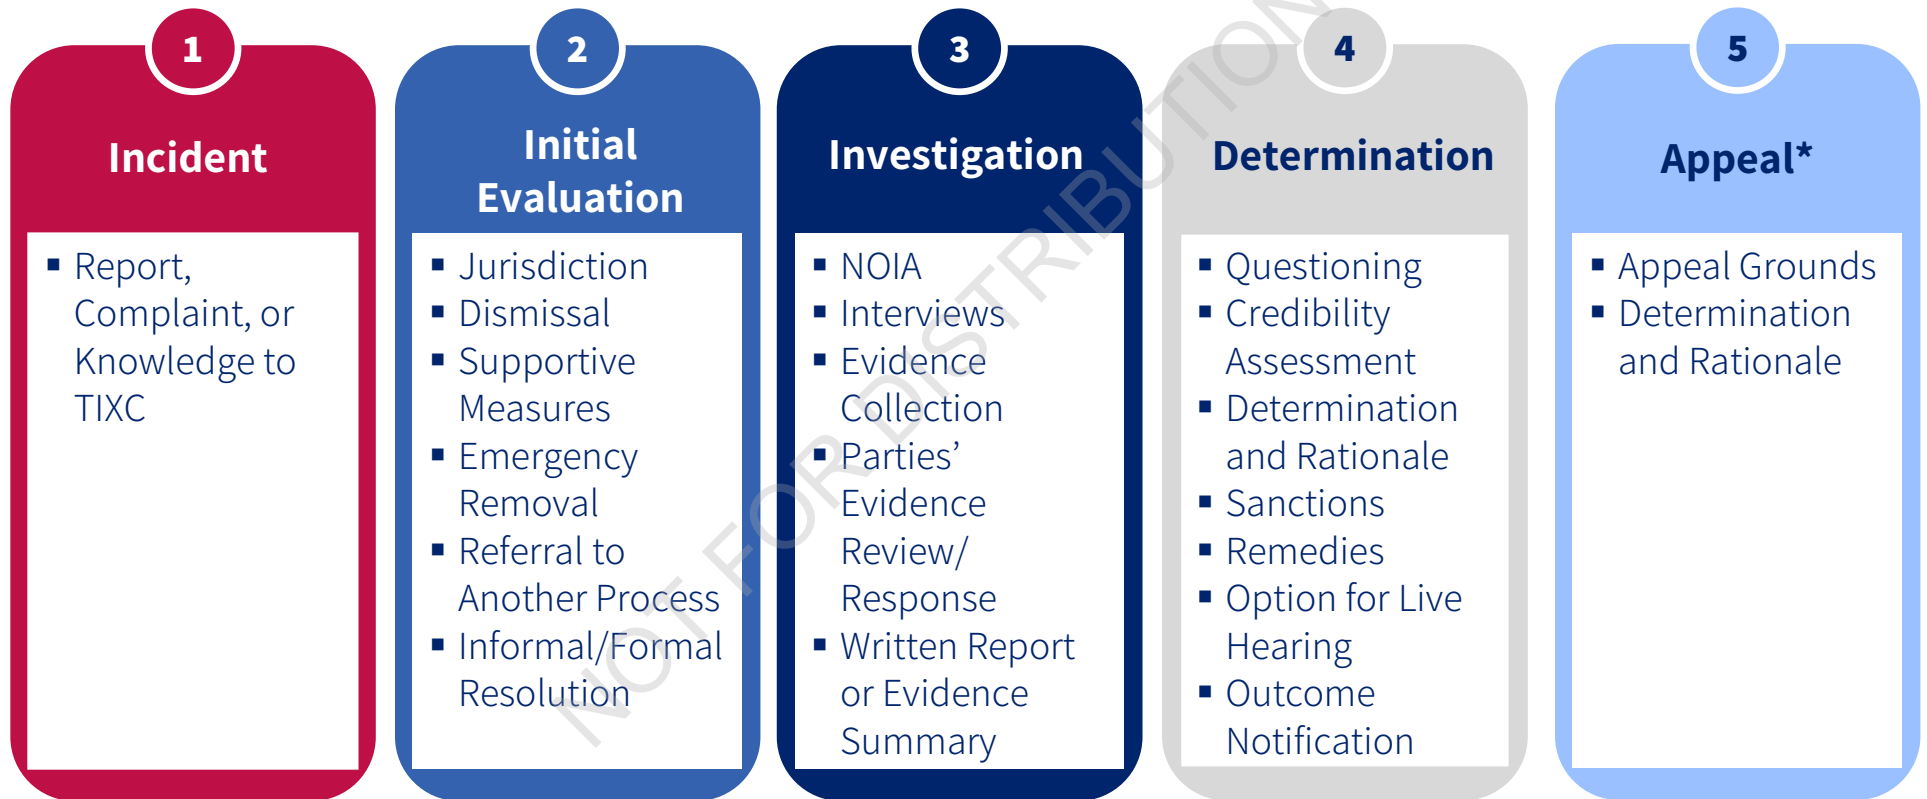

IR for Structural Complaints

- No specific Respondent
- Individuals in current roles are not always the same individuals who wrote/implemented the discriminatory policy/practice
- Can necessitate Facilitator with positional authority within the institution
- Two-phase resolution
 - Remediating the immediate complaint
 - System/policy/environmental change

Timing

- IR may be implemented prior to or in lieu of an Administrative Resolution
- Institutions determine whether an investigation should proceed or be paused while IR is attempted
 - Jurisdiction over Respondent
 - Party and witness availability
 - Evidence availability
- Timing may inform IR structure or options that may be available

Title IX Resolution Process Overview

Common Off-Ramps for IR

Any party may request to pursue an IR at any point prior to a final determination

Determining Availability & Appropriateness

Key Values

Considerations for Appropriateness

- Not all complaints are appropriate for IR and not all parties are ready to participate
- Not all forms of IR are appropriate for all circumstances
- Factors to consider:
 - History of emotional, physical, or sexual violence between parties
 - Power imbalances between parties
 - Potential to jeopardize safety or well-being
 - Situations involving minors harmed by adults
 - Party or parties not sincere or acting in good faith

Informal Resolution Structures & Implementations

Cross-Cultural Considerations

Culture

“[A] set...of rules for being in the world...[and] shared cognitive approaches to reality that distinguish a given group from others.”

Adler, Nancy & Jelinek, Mariann. (2006). Is “Organizational Culture” culture bound? Human Resource Management. 25. 73 - 90.

Cross-Cultural Considerations

“
Culture eats
strategy for
breakfast.”

Peter Drucker
Management Theorist

- Practitioners need a thorough understanding of institutional culture and needs
- Culture is learned and adaptable
- People tend to defend and protect their culture
- People are often oblivious to the unique customs of their own culture

Cultural Competence

Awareness of one's own cultural beliefs and values and how they may be similar to or different from other cultures

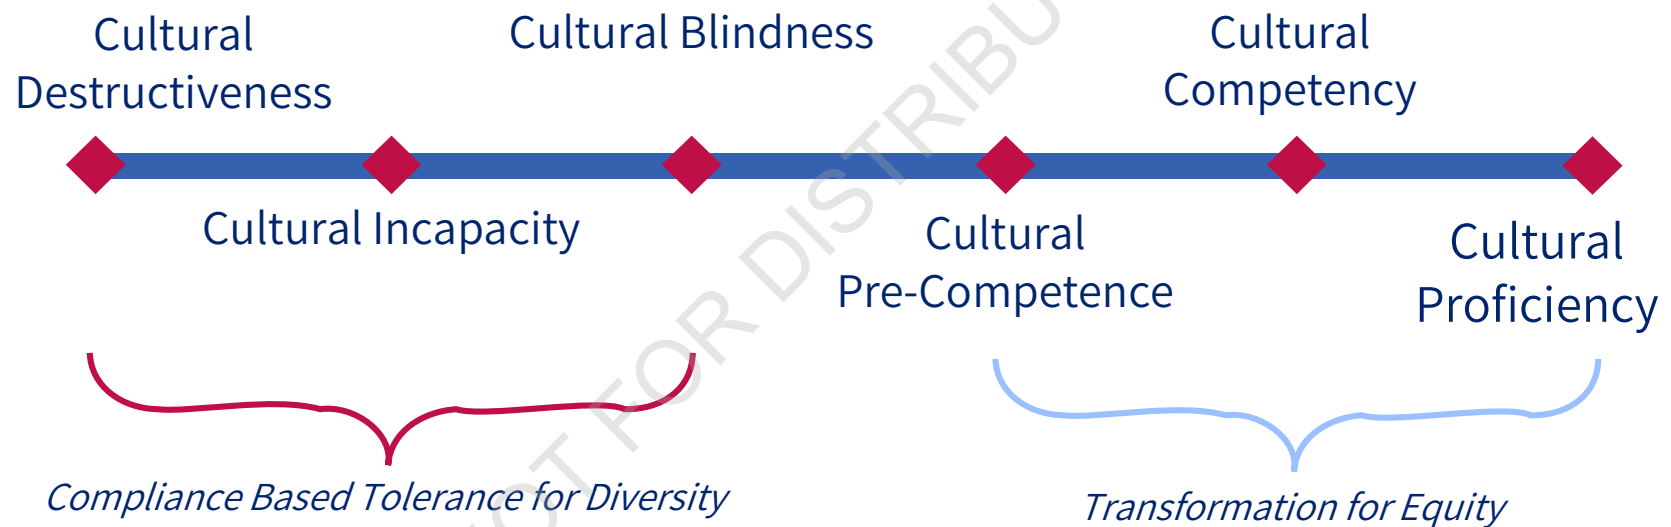

Individual

- Awareness of one's own worldview
- Developing positive attitudes toward cultural differences
- Willingness to accept and respect cultural differences
- Gaining knowledge of different cultural practices and worldviews
- Incorporating knowledge into interactions across cultures

Organizational

- Defined values and principle
- Behaviors, attitudes, policies, and structures that allow support effective cross-cultural communication
- Capacity to acquire and apply cultural knowledge
- Managing dynamics of difference
- Adapting to cultural contexts

Cultural Competence Continuum

Cultural Competence Stages

- 1 CULTURAL DESTRUCTIVENESS**
Attitudes, policies, structures, and practices within a system or organization that are destructive to a cultural group
- 2 CULTURAL INCAPACITY**
Lack of systemic and organizational capacity to respond effectively and efficiently to the needs, interests, and preferences of culturally and linguistically diverse groups
- 3 CULTURAL BLINDNESS**
Expressed philosophy of viewing and treating all people the same

Cultural Competence Stages

Trauma and Culture

A trauma-informed approach refers to the manner in which an institution thinks about and responds to those who have experienced or may be at risk of experiencing trauma

- Anyone can experience trauma and reactions vary from person to person
- Culture influences how an individual interprets and assigns meaning to trauma
- Practitioners must understand trauma-informed practices in relation to cultural differences
- Trauma-informed institutions have a culture that incorporates a thorough understanding of trauma-informed principles and practices
- Offering IR is one way to move toward trauma-informed practices for all parties

Dynamics of Sex- and Gender-Based Violence

- Culture affects how individuals view and experience gender-based violence (GBV)
- GBV occurs across many different types of relationships
- Relationships, and the power dynamics of those relationships, have an enormous impact on what strategies will provide the most effective responses
- Cultural aspects that may influence how GBV is experienced and viewed include:
 - Spoken and unspoken rules about behavior
 - Bodily autonomy
 - Fear, shame, and evaluation
 - Laws
 - Religious beliefs

Culture and Conflict Resolution

- Cultures are embedded in every conflict because every conflict arises within human relationships
- Affects the ways we name, frame, blame, and attempt to tame conflict
- Influences how individuals engage in conflict resolution

Approaches to Conflict Resolution

Context and Communication

Culture and Contracts

- Not all cultures view negotiations and contracts the same way
- Institutions should be cognizant of this if implementing IR processes seeking to reach an agreement

Power and Privilege

- **Power:** right or ability to govern, rule, or strongly influence people or situations, including determining who will have access to resources
- **Privilege:** refers to the unearned benefits given to a member of one social group as a result of the systemic targeting or marginalization of another social group
- Many IR mechanisms require parties to share power with rather than use power over others
- Power and privilege can impact the way parties view the Facilitators' perceived identities in relation to their role

Intersectionality

- Framework for understanding how aspects of a person's identities contribute to various disadvantages and privileges
- Recognizes that identity markers do not exist independently, and each informs the others
- How one travels the world
- Some identities may be more salient than others depending upon context

Intersectionality

Framework for understanding how aspects of a person's identities contribute to various disadvantages and privileges

RACE

Often a dominant identity when navigating systems

GENDER AND GENDER IDENTITY

More salient for gender diverse individuals encountering lack of knowledge or understanding

ABILITY

Ability status often diminished based on intersecting identities

ETHNICITY

Can create a feeling of being siloed into one group or another

SEXUALITY

May be more dominant for males than females

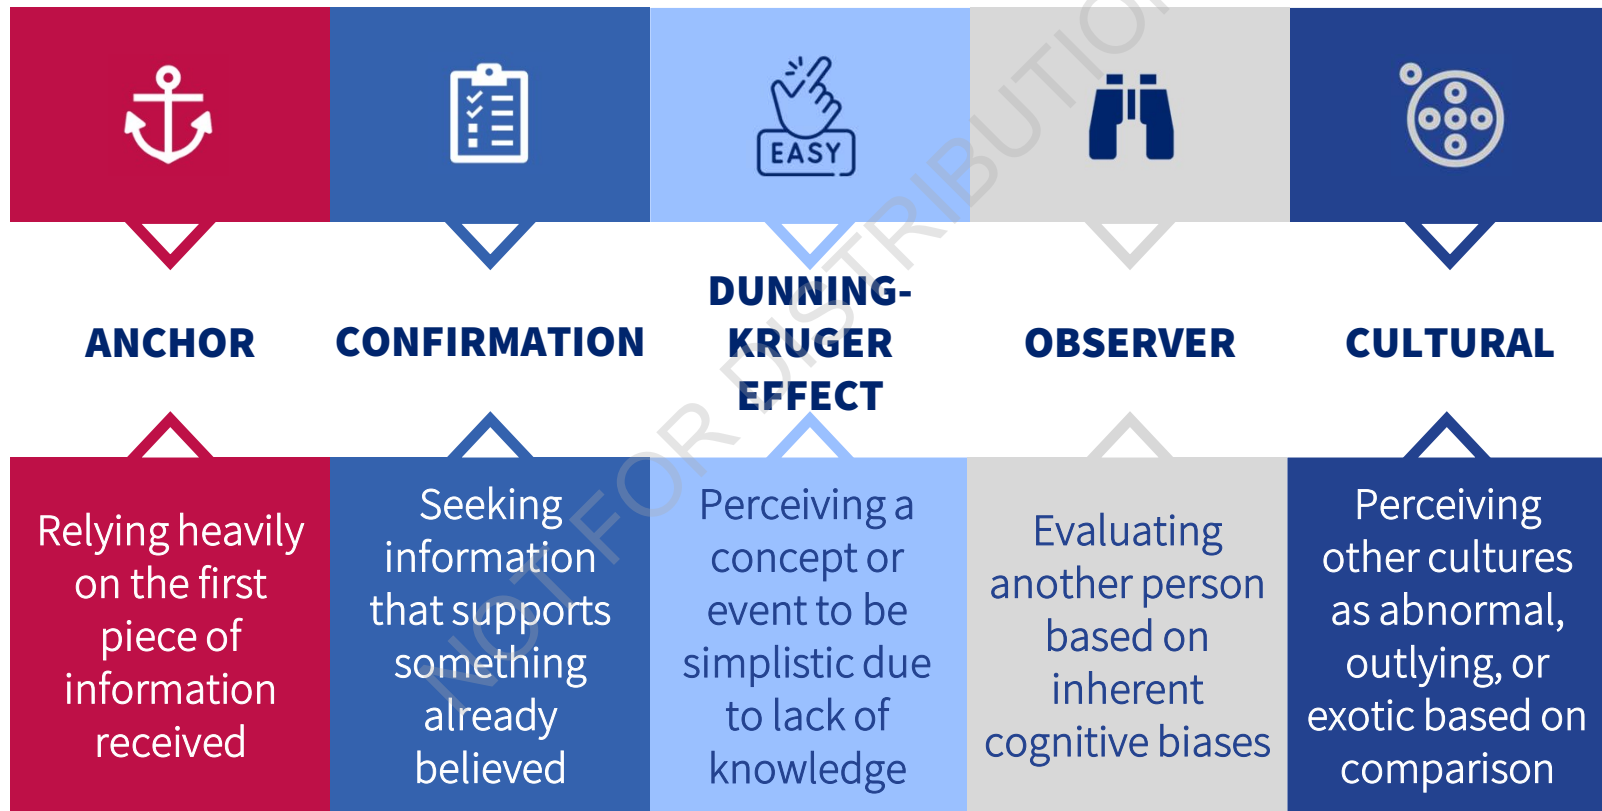

What is Bias?

- A preference or tendency to like or dislike
- A cognitive process
- Can be a systematic error in our thinking process
- Mental shortcuts
- A thought process developed over time through repeated personal experience
- Implicit or explicit
- Can be intentional, but generally unintentional

What is Bias?

- Formed from stereotypes, societal norms, cultural experiences, expectations of the people around you
- Can affect our perceptions of Complainants **and** Respondents
- Common pre-conceptions about Complainants **and** Respondents
- Can affect our perceptions of others within the process or associated with the process

Types of Bias

Common Bases for Implicit Bias

- Ability
- Age
- Citizenship status
- Ethnicity
- Gender
- Gender Identity/Expression
- Health status
- Marital status
- Mental health status
- National origin
- Parental status
- Physical attributes
- Race
- Religion
- Sexual orientation
- Socioeconomic status

Strategies for Addressing Bias

- Provide robust training
 - Cultural Competency
 - Title IX regulatory requirements
 - IR skills and best practices
- Encourage IR Facilitator to share potential concerns or areas of bias with TIXC
 - Assign an alternative IR Facilitator if a potential concern or bias is present

ATIXA's Informal Resolution Framework

NOT FOR DISTRIBUTION

ATIXA's Informal Resolution Framework

ATIXA's Framework contemplates four categories of IR:

Supportive Resolution

- Title IX Coordinator (TIXC) resolves the report or complaint by providing:
 - Supportive Measures
 - Remedies
- Complaint not required
- Exception to Notice requirement
- Respondents are typically not involved unless a supportive measure directly involves or impacts them
- Parties may challenge the provision, denial, modification, or termination of supportive measures

Supportive Resolution

- Complainant declines to pursue Administrative Resolution Process
- TIXC works with Complainant to determine reasonable and appropriate supportive measures
 - May not **unreasonably** burden either party
 - No cost to the Complainant
- Cannot disclose supportive measures to anyone other than the Complainant, unless necessary to implement the supportive measure or restore or preserve access to the education program or activity

Supportive Resolution

Examples include:

- Academic adjustment
- Monitoring at certain times/locations within the school day
- Transportation assistance; escorts
- No Contact Orders; must notify the Respondent
- Counseling
- Modified work schedule
- Departmental training for faculty
- Revised student organization event policies

Supportive Resolution

▪ **Facilitation Foundations**

- What does TIXC and/or IR Facilitator need to know?
- Work collaboratively to identify reasonable and appropriate supports
- Empower choice
- Be cautious about incomplete accounts

▪ **Appropriate Documentation**

- Decision to decline complaint and/or other resolution options at this time
- Option to pursue complaint in the future
- What was offered, declined, and implemented
 - How to request additional support or modifications
 - Document plan for future academic years

Supportive Resolution Agreement Example

“Agreement” between TIXC and Complainant that outlines specific supportive measures to be implemented

Example:

- Title IX Coordinator will contact Dr. Simmons (ENG 4301), Dr. Gaines (MAT 2205), and Dr. Lyles (POL 3700) to request they work directly with Complainant regarding academic adjustments appropriate to their courses for the Fall 2023 term
- Complainant will be cc’ed on e-mails and is encouraged to work directly with faculty to make specific arrangements
- Title IX Coordinator will work with Office of the Registrar to facilitate a late withdrawal from HIST 2011 without academic or financial penalty

Educational Conversation

- Conversation between Facilitator and Respondent about reported behavior
- Does not result in disciplinary action
- Documented for future reference
- Provides an opportunity to stop behavior and provide Respondent with any necessary support
- Not a behavioral contract

Educational Conversation

- Complaint not required
- Complainant declines to pursue Administrative Resolution Process
- TIXC meets with Respondent to discuss reported concerns
 - Respondent not required to participate in meeting
 - Respondent not required to provide any response/explanation for concerning behavior
- Cannot disclose details of conversation to Complainant without Respondent's agreement to do so; can verify whether conversation took place

Educational Conversation

▪ **Facilitation Foundations**

- What does TIXC and/or IR Facilitator need to know?
- Work collaboratively with Complainant to identify discussion topics
- Discuss necessary supports with Respondent
- Be cautious about incomplete accounts

▪ **Appropriate Documentation**

- Decision to decline complaint and/or other resolution options at this time
- Option to pursue complaint in the future
- How to request additional support or modifications

Accepted Responsibility

- Respondent accepts responsibility for violating policy and accepts the recommended sanction(s) prior to a final determination
- Accepted Responsibility may allow, but does not require, the parties to communicate directly about the allegations with the assistance of a third-party Facilitator

Accepted Responsibility

- TIXC, Complainant, and Respondent agree to sanctions/corrective actions
- If the institution uses a **progressive sanctioning model**, the TIXC will need access to the Respondent's prior disciplinary history
- **No appeal process** if all parties agree on IR terms
- Document parties' decision to not pursue Administrative Resolution Process

Accepted Responsibility

▪ **Facilitation Foundations**

- What does TIXC and/or IR Facilitator need to know?
- Discuss Complainant and Respondent needs and goals
- Ensure all parties/parents/guardians are voluntarily participating
- All parties must agree to findings/sanctions
- Outcome enforcement procedures

▪ **Appropriate Documentation**

- Decision to decline Administrative Resolution Process and/or other resolution options
- Signed agreement

Signed Resolution Agreement Example

Respondent accepts responsibility for violating the Sex-based Hostile Environment Harassment policy by repeatedly making unwelcome sexual comments to Complainant in person and sending sexual content to Complainant via text message between March and September 2023

- Respondent agrees to attend sex-based hostile environment harassment prevention training provided by Human Resources by December 15, 2023
- Respondent agrees to have no contact with Complainant unless it is expressly work related
- Respondent will be placed on employment probation for a period of one calendar year
- Failure to adhere to this agreement will result in disciplinary action for Respondent's failure to comply

Alternative Resolution (AR)

- Parties agree to resolve the complaint through an AR mechanism such as facilitated dialogue, shuttle negotiation, or restorative practices
- AR may allow, but does not require, the parties to communicate directly about the allegations with the assistance of a third-party Facilitator

Alternative Resolution

- Encompasses any mechanism used to resolve a report or complaint that is not a Supportive Resolution, an Educational Conversation, Acceptance of Responsibility, or the Administrative Resolution Process
- May or may not result in formalized agreement between the parties and institution
 - Agreements are only binding on the parties
- Should always include intake, preparation, facilitation, and closure phases
- Five common alternative resolution mechanisms:
 - Conflict Coaching
 - Facilitated Dialogue
 - Shuttle Negotiation
 - Mediation
 - Restorative Practices

Conflict Coaching

- Party, usually the Complainant, works one-on-one with a trained Facilitator
- Discuss the behavior they want to address
- Explore strategies for addressing the behavior directly with other party
- Often includes role-playing practice

Conflict Coaching

STRENGTHS

- Prevents low-level concerns from escalating
 - Empowers parties and builds conflict resolution skills
-

CHALLENGES

- Relies on one party's version of the events
 - Dependent upon initiating party's willingness to engage
-

CONTEXT CUES

- Pre-existing relationship
 - Low-level conduct
 - Respondent may struggle with reading social cues
-

BEHAVIORS

- Unwelcome communication
- Lingering or lurking
- Repeated requests for dates

Facilitated Dialogue

- Parties engage in direct conversation about incident/conflict
- Use the assistance of a mutually serving Facilitator
- Focus on providing space and framework for communication versus finding agreement

Facilitated Dialogue

STRENGTHS

- Allows for dialogue without pressure to reach an agreement
 - Easily adaptable to in-person or virtual settings
-

CHALLENGES

- May leave parties feeling the situation is unresolved
 - Can easily turn into debate rather than dialogue
-

CONTEXT CUES

- Parties open to direct interaction
 - Conduct may not rise to the level of a policy violation
 - Goal of perspective sharing and increasing understanding
-

BEHAVIORS

- Offensive or hate speech
- Not respecting boundaries
- Behaviors occurring around but not directed at the Complainant

Shuttle Negotiation

- Most common approach being used at institutions offering IR
- Third-party Facilitator acts as a go-between for the parties
- Often takes several conversations with each party before resolution is reached

Shuttle Negotiation

STRENGTHS

- Allows for resolution without direct interaction
 - Flexible to accommodate different communication preferences
-

CHALLENGES

- Relies heavily upon Facilitator's accuracy and skill
 - Often does not address underlying feelings and needs
-

CONTEXT CUES

- Parties do not want or are restricted from direct communication
 - Goal of sharing perspectives and reaching agreements
 - Parties have ongoing relationship/overlap in education, social, or employment activities
-

BEHAVIORS

- Hostile Environment Harassment
- Dating or Domestic Violence
- Sexual Exploitation

Mediation

- Structured process where mutually serving Facilitator fosters an environment of open communication between parties with an intention of reaching an agreement
- Facilitators tend to follow facilitative and/or transformative mediation models for Title IX complaints
- Mediators tend to keep their own views of the matter hidden

Mediation

STRENGTHS

- Seeks to address short- and long-term issues
 - Structured to facilitate developing a tangible agreement
-

CHALLENGES

- Assumption that both parties contributed to causing the matter being mediated
 - Not appropriate for matters with unresolved power imbalances
 - Often results in compromise; no party is fully satisfied
-

CONTEXT CUES

- Parties willing to be in the same space
 - Limited or no power imbalances
 - Flexibility about what outcome may result
-

BEHAVIORS

- Hostile Environment Harassment
- Sexual Exploitation
- Structural Complaints

Restorative Practices

- May take the form of a circle, conferencing, or an exchange of statements
- Focuses on identifying:
 - Who was harmed
 - How they were harmed
 - Respondent taking accountability for causing harm
 - Parties determining how Respondent can best repair the harm
 - Reintegrating the Respondent
 - Responsibilities and commitments to community

Restorative Practices

STRENGTHS

- Provide Complainant opportunity to be heard and have questions answered
 - Allow parties to work collaboratively to determine how harm and relationships can be repaired
-

CHALLENGES

- Cultural shift for Respondents to take accountability
 - Require highly skilled and experienced Facilitator
 - Often time-intensive for preparation and facilitation
-

CONTEXT CUES

- Respondent is taking accountability for causing harm
 - Desire to repair or transform a pre-existing relationship
 - Openness to listening to others' experiences and perspectives
-

BEHAVIORS

- Sexual Exploitation
- Stealthing
- Hazing

Alternative Resolution Process

Who Should Facilitate?

- Institutions have discretion to determine who can serve as an IR Facilitator
 - Cannot be Investigator or Decision-Maker for the same matter
- Models:
 - TIXC can serve as Facilitator (not preferred)
 - Identified Deputy TIXC who typically facilitates
 - Facilitator pool
 - Student affairs, human resources, faculty
- Institutions may contract or hire external Facilitators
- TIXC will need to determine appropriateness of Facilitator preference requests from parties

Intake

- First step in process
- Best facilitated by the person or pair running the process
- All parties need to participate in individual intake sessions

Intake Session Goals

- Build rapport
- Evaluate emotional, mental, and physical safety for participation
- Ascertain motivation and goals
- Explain AR process and manage expectations
- Identify support resources for parties
- Determine what would prevent continuation of process for each party

Facilitator Reminders

- For most parties, this is a new process
- Provide reference materials for parties after the intake meeting
- Facilitator's goal is to make the process or action accessible and navigable for the parties
- Do not take parties' actions personally
- Avoid making assumptions and challenge assumptions the parties make

Positions, Interests, and Needs

P

Positions: specific demands; a chosen stance; a solution a upon which a party has decided

Example: “I want the Respondent suspended”

I

Interests: underlying motivations, hopes, concerns, desires, or worries that led a party to their position; what helps a party choose their solution

Example: “I don’t want to have classes with the Respondent”

N

Needs: what a party actually must have

Example: safety

Intake Meeting Structure

**GATHER PARTY'S
PERSPECTIVE**

**EXPLORE POSITIONS,
INTERESTS, NEEDS,
AND FEELINGS**

**ASCERTAIN PARTY'S
MOTIVATION**

**ASK WHAT CANNOT BE
SHARED WITH OTHER
PARTY**

**DISCUSS PARTY'S
GOALS**

**OBTAIN WRITTEN
CONSENT**

Evaluation Frameworks

- Pay attention to cues indicating whether a party is in a conducive mental and emotional state for Alternative Resolution participation
- Assessing readiness and amenability for Alternative Resolution is both an art and a science
- Three example frameworks:
 - The 10 D's of Opposition
 - Four Levels of Accountability
 - ATIXA's Informal Resolution Framework

10 D's of Opposition

DEFLECT

DELAY

DENY

DISCOUNT

DECIEVE

DIVIDE

DULCIFY

DISCREDIT

DESTROY

DEAL

NOT FOR DISTRIBUTION

Four Levels of Accountability

Want to repair
harm and
relationships

Desire to
understand
impact of harm

Ability to
acknowledge
you caused
harm

Ability to
acknowledge
someone was
harmed

ATIXA's IR Framework

Checklist outlining considerations for determining appropriateness and parties' preparedness for Alternative Resolution

Considerations:

- Parties' amenability to AR
- Likelihood of resolution
- Parties' motivation
- Civility
- Results of violence risk assessment
- Emergency removal implications
- Complaint initiation
- Facilitator skill
- Emotional investment
- Rationality
- Parties' goals
- Resources

ACTIVITY: David and Andrea Part II

NOT FOR DISTRIBUTION

Intake with David

David explained that he started dating Andrea in high school, and they came to college as a couple. During their sophomore year, David proposed, and Andrea accepted. They moved in together in an off-campus apartment for their junior year. However, at the end of their junior year, their relationship became strained, and they started arguing on a regular basis. David shared that he decided to end the relationship over the summer and moved into an apartment with friends. David stated that he does not want to have any further contact with Andrea and there is no reason she should be continuing to contact him (i.e., no shared children, pets, property, etc.). He requests a No Contact Order and is considering whether to file a complaint.

David and Andrea

Initial Screening

- Is this situation appropriate for a possible IR?
- Is this a scenario where we need to follow IR procedures as specified under the Title IX Regulations?
- What IR method might be appropriate?
- What potential outcomes can you envision based upon the information-provided?
- What other issues do you “spot” as you think about approaching the parties regarding IR?

Next Steps

- Based on the information David has provided, what would your next steps be?
- What is your process for issuing a No Contact Order?

Conversation with Andrea

Andrea provides similar information regarding the history of her relationship with David. She explains that when they were together, she consented to allowing David to take nude photographs of her multiple times. Andrea has heard a rumor that David still has the photos and has commented to mutual friends that he plans to post them online. Andrea has been trying to speak to David about deleting the photos, but he refuses to answer or return her calls or speak to her in person. Although Andrea was not happy about the relationship ending and would be open to rekindling things with David, all she really wants at this point is for David to delete the photos.

Preparation Meetings

- Number and structure of preparation meetings depends on AR mechanism and parties
- Facilitator should go into each meeting prepared with what they want to achieve during the meeting
 - AR can take unexpected turns and Facilitators should not plan for a particular outcome
- Parties may not get to a place where they are ready to interact

Nonviolent Communication (NVC)

- Method of communication alleged to increase empathy and improve quality of life
- Four stages include:
 - Observations
 - Feelings
 - Needs
 - Requests/Offers

If "violent" means acting in ways that result in hurt or harm, then much of how we communicate could indeed be called "violent" communication.

Nonviolent COMMUNICATION

A Language of Life

Words matter. Find common ground with anyone, anywhere, at any time, both personally and professionally.

MARSHALL B. ROSENBERG, PhD

Foreword by Deepak Chopra

Endorsed by Tony Robbins, Azeem Gandhi, Marianne Williamson, John Gray, Jack Casfield, Dr. Thomas Gordon, Riane Eisler, and others

Preparation Questions

Complainant

- What would you like the Respondent to learn as a result of this incident?
- What would help you feel confident that this behavior will not happen again?
- Do you want to be able to have contact with the Respondent following this incident?
- What did you need in the moment that the incident was happening?

Respondent

- What do you think you need to learn as a result of this incident?
- Are there any underlying issues that contributed to your choices and behaviors that need to be addressed?
- What would help you feel confident that this behavior will not happen again?

Facilitation

1

Opening

- Introductions
- Process explanation
- Guidelines/ground rules

2

Connection and Communication

- Exchange of information between parties
- Reflections and responses

3

Developing Agreements

- Requests and offers
- Negotiation
- Expectations for non-compliance

4

Closing

- Conversation recap
- Review and finalize any agreements

ACTIVITY: David and Andrea Part III

Positions, Interests, and Needs

David

I want Andrea to leave me alone

We aren't in a relationship; there is no reason for us to communicate

Space, independence

Andrea

David needs to delete the photos

He has no reason to keep the photos and I don't want them being shared

Integrity, cooperation, respect

Process Closure

- Involves responsibilities for TIXC and the Facilitator(s)
- ATIXA recommends the TIXC approve any agreements before they are finalized
- Process closure includes:
 - Written agreements
 - Follow-up with the parties
 - Facilitation debrief
 - Documentation
- If behavior continues after reaching a resolution, Complainant can initiate/resume the Administrative Resolution Process to address the additional instance(s)

Resolution Agreements

- Facilitator documents resolution from process notes
- Once approved by TIXC: clear communication regarding what is required of parties, if anything
- Copies of resolution are provided to parties for review
- Institution will determine whether parties will sign an acknowledgment of acceptance
- Final copy is provided to the parties and maintained by TIXC
- Document sufficient details to allow for an evaluation of a possible pattern in the event of a future complaint

Unsuccessful Resolution

- Facilitator or TIXC should meet with the parties individually to discuss why AR was unsuccessful
 - Gauge ability and willingness to revisit outcome and continue AR process
- Refer the complaint back to the Administrative Resolution Process to begin or resume as appropriate
 - Complainant has option to withdraw the complaint
- For unapproved proposed resolutions, TIXC must provide a rationale
- Facilitator should provide process notes to the TIXC to be included in the complaint file

Institutional Support for Alternative Resolution

Interest and Openness

- Identify existing conflict/alternative resolution processes at the institution
- Determine if there are community-based resources in the local area
- Consider whether the institution's culture and mission speak to support for AR processes

Involving Stakeholders

- President
- Executive Team/Cabinet-level Administrators
- Legal Counsel
- Title IX Coordinator
- Clery Act Compliance Coordinator
- Prevention/Sexual Health Educators
- Human Resources
- Faculty/Staff
- Student Conduct
- Residence Life
- Student Activities
- Student Government
- ADA/Section 504 Coordinator
- Campus Safety/Law Enforcement
- Faculty/Staff Senate
- Unions

Program Proposal

- Understand the process to submit new program ideas at the institution
- Consider proposing a pilot

Formal Proposal

- Cost, resources, human resource analysis
- Space allocation
- Policy changes
- Benchmarking data

Informal Proposal

- General information gathering
- Meeting with stakeholders
- Find champions

Resource Considerations

Policy Considerations

- Determine if institutional policy allows for AR
 - Permissiveness
 - Deal breakers
- Determine whether institutional support exists for AR and to review/amend policies
- Know institutional processes and timelines for policy revision and approval
 - Submission and review
 - Approval
 - Legal counsel review

Training Considerations

Process Considerations

NOT FOR DISTRIBUTION

Setting the Tone

Practitioners need to consider the tone they hope to set for IR in their process

- Participant experience from intake through resolution
- Policy language
- Print and web-based materials
- Presentations and training
- On- and off-ramps
- Structural complaint resolution mechanisms

Process Structure Considerations

- ATIXA recommends the TIXC have authority to disapprove a proposed resolution
 - Responsible for ensuring equity within a complaint and across complaints
 - Requirement to stop, prevent, and remedy
- Institutions need clearly defined deal-breakers
- Accurate understanding of the support and comfort level in applying AR in Title IX matters

Facilitation Structuring

- Institutions need to determine which of the IR and AR options they will offer
- Identify and train Facilitators
- Determine the types of complaints the institution will resolve with internal vs. external Facilitators

Privacy Considerations

- Who is invited to participate?
- Non-Disclosure Agreements
 - All parties sign?
 - Advisors
 - How to address a violation of the agreement?
 - Violation by non-affiliated parties?
- Mandatory Reporting
 - Abuse of minor/elder/person with a disability
 - Threats of harm to self
 - Threats of harm to others

Advisors

- Institutional policy determines if Advisors are permitted during IR
- Assess whether institutional policy allows Advisors in other similar processes
 - Full participation/representation vs. limited role
 - Representative for institution
- Only primary parties should be permitted to have Advisors in circle or community processes
- Clearly explain Advisor role and expectations in published policy/procedures and first Advisor interaction

Notetaking

- Facilitators often take notes to help all participants track issues and agreements during the IR process
- Institutions must determine if Facilitator notes are maintained, and if so, by whom and how

Information Admissibility in Administrative Resolution Process

Institutional choice to allow information from an AR to be used in the Administrative Resolution Process

- A flexible approach allows institutions options and sets expectations with parties involved in each complaint
- Respondents may hesitate to participate without some assurance that information they share won't be used against them in another venue
- Confidentiality agreements/NDAs and/or information sharing expectations can be part of the agreement to participate
- Carve out for “admissions” about one’s own conduct vs. a blanket statement covering all information discussed in IR

ATIXA's Recommended Policy Language

“Under circumstances approved by the TIXC, the parties may agree, as a condition of engaging in Informal Resolution, that statements made, or evidence shared, during the Informal Resolution process will not be considered in the Administrative Resolution Process unless all parties consent.”

Record Retention

- Title IX complaints and associated information must be maintained for a minimum of **seven** (7) years
 - IR is part of this recordkeeping requirement
- Institutions need to determine:
 - Who maintains records
 - How records are retained
 - Whether to create and maintain recordings of AR meetings
 - Whether parties may request to review or amend records
 - Protocol for releasing records as requested and permitted by law

Assessing Effectiveness

Life Cycle of a Program

Determining Effectiveness

- Demonstrate IR effectiveness through qualitative and quantitative data

Qualitative Data Sources

Parties

Facilitators

Stakeholders

- Post-facilitation surveys
- Informal check-ins
- Formal closure interviews

Determining Effectiveness

Quantitative data for benchmarking and trend analysis:

- Recidivism rates
- Retention rates
- Adherence to agreements
- Number of complaints eligible for IR compared to the number that chose IR
- Successful vs. unsuccessful IR
- Process length for IR vs. Administrative Resolution Process
- Staff time spent per complaint on IR vs. Administrative Resolution Process

Process Improvement

Data collection will inform improvements for a variety of areas:

- Facilitator training and education
- Staffing and resource allocation
- Process/policy updates
- Community awareness messaging
- Benchmarking best practices

Process Reassessment

- **Self-Assessment** completed by individuals within the TIX office
- **External review** conducted by consultants or peer reviewers with substantive experience and expertise in IR
- **Internal review/audit** conducted within the institution but not the TIX office
- Benchmarking best practices
- Complaint statistics and program data
